SUMMARY

Fashion Designer with experience at ZARA, specializing in trend forecasting, fashion design, digital illustration, and product development. Designed 150+ seasonal pieces with a 75% production approval rate. Proficient in Adobe Illustrator, CLO 3D, and AI-powered design tools, with expertise in developing trend-driven, commercially relevant designs from concept to execution.

EXPERIENCE

Fashion Designer

May '24 — Present

CTA Apparels Pvt Ltd

Noida, India

- Design seasonal fashion collections by researching emerging trends, fabrics, silhouettes, colors, and consumer preferences to develop commercially relevant concepts
- Conduct trend forecasting and market research to identify emerging fashion directions and translate insights into seasonal design concepts.
- Develop digital prints and print concepts based on buyer inspirations, briefs, and collection requirements, ensuring alignment with brand aesthetics and market trends.
- Use Midjourney AI to create mood boards and visualize concepts faster for buyer presentations

Freelancer

Oct '24 — Apr '25

Digital Print

Chandigarh, India

- Created digital prints aligned with client briefs, specifications, and project requirements.
- Operated digital printing equipment to produce high-quality prints while meeting project timelines.
- Used Adobe Firefly and AI pattern generation tools to accelerate print ideas and deliver unique designs.

Fashion Designer

Dec '24 — Jan '25

ZARA – Womenswear, Lingerie, Menswear & Kidswear

Noida, India

- Designed 150+ seasonal fashion concepts, with 102 approved by buyers, aligning designs with brand identity, market trends, and customer preferences.
- Conducted trend forecasting and global fashion research to identify emerging styles and translate insights into seasonal collections.
- Developed mock-ups and design concepts based on buyer briefs and incorporated feedback through the approval process.
- Used CLO 3D virtual prototyping and AI-powered trend forecasting tools to visualize garments, accelerate development, and reduce sampling iterations.

Graphic Designer

Jan '23 — Apr '24

Surajkund (Haryana Tourism)

Chandigarh, India

- Designed logos, layouts, product graphics, souvenirs, flyers, and promotional materials.
- Created engaging social media graphics for digital marketing campaigns.
- Used Canva AI and Adobe Express AI to accelerate creative production and campaign asset development.
